

Support in obtaining data for mission documentation in MEG

Dear professor Ševarlić,

It is with great pleasure that we would like to confirm that your Diaspora Organisation project, implemented together with **Zentralrat der Serben in Deutschland (ZSD) e.V.**, was selected by our Programme “Shaping Development-Oriented Migration (MEG)” in Germany as a project to be documented for its results.

The goal of the documentation of your mission is to **demonstrate the progress and achievements of our programme** to the Federal Ministry for Economic Development (BMZ), the commissioning party of MEG.

As such, GIZ has contracted a team that will carry out the documentation of the results of your project:

Currently serving as Executive Director and Lead Qualitative Researcher at the Public Policy Research Centre in Serbia, Dr. Jakobi has led and contributed to numerous national and international projects focused on labour markets, skills development, digital transition, and social inclusion. She has notable expertise in monitoring and evaluation (M&E), particularly within the agri-food sector, where she has assessed the adoption of digital technologies among smallholder farmers and analysed skills gaps for sustainable growth.

E-Mail: tanja.jakobi@gmail.com

- **Nicole Nash – Team Leader:** Nicole Nash, a Senior Project Manager and M&E Expert at GOPA, holds a Master's degree in German Studies, English Linguistics, and Comparative Literature, with 14 years of M&E consulting experience in the development cooperation context. She is experienced in various quantitative and qualitative methods, leading data collection teams, and conducting M&E workshops.

Many thanks in advance for all your support. It is in all our mutual interest to showcase the real and positive impact this Diaspora Organisation project has had.

We look forward to working with you.
